

Protect your home & family with  
our windows, doors & conservatories

Try our unique locking mechanism...

## HAMMERLOCK

Probably the most secure window on the market!

**Hammerlock is a specialist product only  
available to Winter products Ltd.**

This specialist safety lock provides extra protection through design, preventing opportunist theft and break-in. Our Hammerlock windows are fitted with a security, 4 point locking system designed to exceed security standards along with a £500 security pledge.

The product also comes complete with a stainless steel anti-lift face plate to create an extremely sturdy weather resistant mechanism.
